

What academic medicine means for you.

Some of the brightest minds are drawn to academic medicine. Doctors are attracted to the opportunity to practice leading-edge medicine and participate in research and medical discoveries. And, because they are teaching others, the learning process never ends. As educators, they are constantly updating their own education and skill levels. New schools of thought emerge through collaboration. Many times, physicians who practice in academic medical centers are thought leaders and health care innovators. All of which benefits patients in their care.

Our primary care doctors are your assurance of excellent care.

Your family doctor, internist, or pediatrician is the primary care provider—and the medical home—for you and your family. You'll discover that our primary care doctors are patient-centered, accessible, and knowledgeable, and provide an exceptional continuity of care considered the best in New Jersey and among the best in the nation. Should you need specialty care, you'll feel reassured that some of the most experienced, skilled and recognized physicians in the region are available for consultation or referral.

RUTGERS HEALTH

More than 500 physicians.

200 Clinical
Specialties.

ONE FOCUS:

YOU.

A lifetime of care from one medical group.

When you choose a Rutgers Health doctor, you'll benefit from integrated, comprehensive care for all of your medical needs—from primary care to specialty services. Our physicians and scientists work together in the largest medical practice in the region. We're not just leaders, we're also educators. In fact, we've taught many of the physicians in New Jersey, as well as leading figures throughout the country. We're known for creating new therapies and developing landmark treatments that shape the future of medicine. We've pioneered breakthrough methods to target cancer. We provide progressive cardiovascular care, from minimally invasive heart surgery to transplantation. And we offer an academic health campus totally dedicated to children's health.

Brilliant minds. Better medicine.

RUTGERS HEALTH

Health. Discovery. Revolution.

Rutgers, The State University of New Jersey

All for you.

When there is
a special need,
our specialty
physicians are
here to help.

Our physicians are pioneering new treatments and developing new research—especially for cystic fibrosis, lupus, valvular heart disease, autism, and scleroderma. The care of our specialists and subspecialists is considered **among the finest in the region**. And, our anesthesiologists, pathologists, and emergency medicine physicians are the sole providers of these services at Robert Wood Johnson University Hospital, our principal affiliate hospital.

When You Visit

In order for your physician to provide the highest level of service in the most efficient manner, please bring with you the following:

- Your insurance card
- A referral, if necessary
- Any X-rays or test results
- A list of the medicines you are taking
- A list of questions you may have for your doctor

Our staff of specialty physicians includes:

- Allergists
- Cardiologists
- Dermatologists
- Emergency Medicine
- Endocrinologists
- Family Medicine/Geriatricians
- Gastroenterologists/Hepatologists
- General Internal Medicine
- Hematologists
- Infectious Disease and Travel Medicine
- Maternal-Fetal Medicine (high-risk pregnancy)
- Nephrologists
- Neurologists
- Obstetricians and Gynecologists
- Oncologists
- Pathologists
- Psychiatrists
- Pulmonologists
- Rheumatologists
- Sleep Medicine

Our subspecialty surgical care areas include:

- Cardiothoracic
- Colon and Rectal
- Endocrine
- General Surgery
- Neurosurgery
- Obstetric and Gynecologic
- Oncologic
- Otolaryngology
- Pediatric Surgery
- Plastic Surgery
- Trauma and Critical Care
- Urologic and Urogynecologic
- Vascular

Pediatrics

Rutgers Health offers a full range of pediatric specialty care at the Child Health Institute of New Jersey on the children's academic health campus. All of our pediatric physicians are affiliated with The Bristol-Myers Squibb Children's Hospital at Robert Wood Johnson University Hospital and PSE&G Children's Specialized Hospital. For more information, visit www.bmsch.org.

Our subspecialty pediatric services include:

- Adolescent Medicine
- Allergy
- Cardiology
- Child Development
- Critical Care
- Endocrinology
- Gastroenterology and Nutrition
- Genetics
- Hematology and Oncology
- Infectious Disease
- Neonatology
- Nephrology
- Otolaryngology
- Pulmonary and Cystic Fibrosis
- Rheumatology

Behavioral Health

Services available include comprehensive inpatient and outpatient psychiatric care, as well as a dedicated autism center.

Cancer

Our oncologists treat patients at Rutgers Cancer Institute of New Jersey—the state's only National Cancer Institute (NCI)—designated Comprehensive Cancer Center. The center delivers advanced, comprehensive care for adults and children and conducts cutting-edge cancer research.

Surgical Services

Offering a full spectrum of primary, tertiary, and trauma-related surgical care, our surgeons are nationally and, in many cases, internationally renowned for their expertise and skill. Their expertise includes highly sophisticated transplant procedures for adults and pediatrics, and the latest minimally invasive techniques—laparoscopic and robotic procedures for a wide range of conditions, from cardiac and cancer, to colorectal and urogynecologic, as well as advanced neurosurgery techniques such as Gamma Knife radiosurgery and laser ablation.

Women's Health

With board-certified specialists in such areas as obstetrics, gynecology, maternal-fetal medicine, perinatal genetics, and female pelvic and reconstructive medicine, our practice provides a continuum of care focused on women's health issues, from puberty through menopause and beyond.

Insurance Participation

Our practice participates in a number of insurance plans, including HMOs and PPOs, Medicare, and Medicaid. For a complete listing of insurance companies, please view your physician's individual profile in the "Find a Provider" section of our website at www.RWJMedicalGroup.org.

Appointment Cancellation

If you must cancel your appointment, please contact your physician's office at least 24 hours before the appointment. The office will make every attempt to reschedule your visit promptly.
