

## Pregnant? Or want to be? Our maternity and child health services DELIVER!

Rutgers Robert Wood Johnson Medical Group's Family Medicine at Monument Square Maternity Care program allows you to receive your preconception, prenatal, and maternity care from the same physician and practice that provide your primary care services—adding a level of **comfort and convenience** during this special time.

Committed to providing patient- and family-centered care, the physicians involved with our practice's Maternity Care program focus on providing the type of pregnancy and birth experience that meet the desires and needs of each patient.

A Service of  
Family Medicine at Monument Square

Personal, high-quality  
medical care for  
you and your baby

**We focus on the needs of you and your growing family. We will work together with you to provide your ideal experience for prenatal care and the birth of your child. We can also provide care for you and your family once your baby is born.**

## Meeting Your Needs

Continuity of care and collaboration are hallmarks of the maternity care services provided by Family Medicine at Monument Square, a division of Robert Wood Johnson Medical School's Department of Family Medicine and Community Health.

The Maternity Care program is designed for low-risk and some moderate-risk patients. Our close, highly collaborative relationships with Robert Wood Johnson Medical Group's obstetricians/gynecologists and maternal-fetal medicine specialists ensure that all of our patients receive **care that is best suited for each individual.**

In fact, an initial meeting with each mother-to-be helps identify anyone who may be in need of additional care during her pregnancy and delivery. We work closely with our collaborating specialists to offer precisely the care our patients need.

Our maternity and child health services include:

- Preconception care
- Prenatal care
- Labor and delivery care
- Newborn care
- Circumcisions for newborns
- Breastfeeding support
- Primary and acute care for the entire family
